**What we do**  
BTG BioLiquids is a pyrolysis technology provider. Our technology efficiently converts most types of non-food biomass into a second generation bio-oil within two seconds. Based on 15 years of developing, optimizing and scaling up our technology we deliver commercial scale pyrolysis plants to our customers today.

**Latest News**  
21-12 Webshop for online purchase of pyrolysis oil from Empyro  
12-11 Empyro tour as part of bio-energy day  
06-07 Internship at BTG BioLiquids

**Visitor quicklinks**

2. Click on the desired amount of pyrolysis oil you want to order and click “Order online”.

**Pyrolysis Oil - 10 litres**  
10 litre jerrycan containing approximately 10.5 kg of pyrolysis oil. The oil is made from pine wood. Manufactured in our plant Empyro (Hengelo, The Netherlands). An MSDS will be attached to the package.

The price excludes VAT, and excludes local import taxes, duties and fees, which may apply in your country. Shipping time will take around 5-10 working days, depending on your location. Shipping costs will be quoted in the next step.

€ 250,00 per container

[Order online](#)

**Pyrolysis Oil - 1000 litres**  
1000 litre IBC containing approximately 1200 kg of pyrolysis oil. The oil is made from pine

3. If you wish to order more units of pyrolysis oil simply increase the amount and click ‘Save’. To add other products to your order click on ‘Continue shopping’.

To go to the next step please click on the preferred payment method and then click on “Proceed to next step”.

When the shipping costs for you order are available in our system then this webshop enables you to arrange payment straight away. This is the case for shipments with a total weight below 70 kg (worldwide delivery) or below 200 kg within Europe. Payment options are limited to cash-in-advance (wire transfer) and credit card (online payment). Shipment is initiated directly after receipt of payment.

If you have any questions with regard to the webshop, pyrolysis oil, payment or shipping, please feel free to contact us at [webshop@btg-btl.com](mailto:webshop@btg-btl.com). Questions about the licensing of our technology can be directed at [office@btg-btl.com](mailto:office@btg-btl.com).

4. In the next step our webshop asks for your details. These are used once to produce your invoice and calculate your shipping costs in the next step. Fill in your details and your shipping address, and click on "Save".

**Material Safety Data Sheet**  
*Wood derived bio-oil by fast pyrolysis*

**1. Identification of the substance/mixture and of the company/undertaking**

**1.1. Product identifier**

**Common name:** Wood oil  
**Trade name:** Fast pyrolysis bio-oil  
**Definition:** Liquid condensate recovered by thermal treatment of lignocellulosic biomass, at short vapor residence time (typically less than about 10 seconds), typically at between 450-600°C, at near atmospheric pressure or below, in the absence of oxygen.  
**Common synonyms:** Wood derived bio-oil, pyrolysis oil, wood fuel oil, wood distillate.  
**Origin:** Fast pyrolysis of lignocellulosic biomass

When you receive this email it means we have started to ship your order. A track-and-trace code will be send within the next few days, telling you when to expect the shipment.
